## ALL DECKED OUT FOR FUN!

MoistureShield® played a big part in the design of Casey's Clubhouse. Our durable, splinter-free composite decking was the ideal solution for this whimsical play structure for children of all abilities and the largest treehouse in the world accessible to kids in wheelchairs. The design/build firm chose MoistureShield® because it offers long-term durability, is easy to work with, is splinter free and is available in a variety of colors. In fact the builder used 7 of the 8 colors available in the MoistureShield® Vantage Collection. The high-performance deck boards are easy to rip, route and bend, which enabled the builder to produce numerous specialty shapes.

**So if you're looking for beautiful decking that's tough enough to handle kids at play, choose MoistureShield® Composite Decking.**

## ACROSS THE BOARD

Here's even more that MoistureShield® has to offer:

- **MoistureShield® Vantage Collection®** – our high-performance, easy-to-install, reversible boards
- **MoistureShield® Pro** – our new cap stock line featuring an extra layer of protection and beauty
- **MoistureShield® Deck Clips** – concealed fasteners allows for an unblemished deck surface
- **MoistureShield® Pro Aluminum Railing** - adds a contemporary edge to any deck design
- **MoistureShield® Deck Lights** - LED deck lights brighten any deck design
